

Quality Control Worksheet – Report HAS BEEN sent out

Today's date: 2/23/24

QC Received by Heidi

Practice/Physician: Amy Doneen

Patient name: Scott Leimgruber

Scan date: 2/12/24

Response is made: _____

Scan/reading information:

Scan Date	2/12/24	6/24/21	9/28/19
Sonographer	Fontaine	Ababel	Deana
Reader	Diane Morgan	Diane Nielson	Diane Nielson

Concerns:

Scan Date	2/12/24	6/24/21	9/28/19
Mean	0.66	0.68	0.63
Max	0.76	0.83	0.76
Plaque Burden	0	2.7	2.7

2/22/24:

Hi Todd and Heidi. I hope you had a wonderful vacation

This is a scan for Scott L – He has had two previous scans with CardioRisk – 2016 and 2019.

Of interest – Mean and Max have stayed pretty stable.

Of question – In 2019 he had a PBS of 2.7 (1.4 Right – heterogeneous and 1.3 Left – echogenic)

Of question – Now in 2023, it shows now plaque? I don't know which is correct.

Thanks so much

Amy

Too many failures to count:

- 1) Sonographer did not follow the protocol
- 2) Sonographer did not ask patient or report previous exam
- 3) Sonographer did not report providing physician (Doneen)

Quality Control Worksheet – Report HAS BEEN sent out

- 4) Reader did not N/V the images and report unfollowed protocol (Look for pathology on ALL images not just the labeled images)
- 5) Home office did not look for duplicate patient
