Scan/reading information:

Sonographer	Sheri	Jason
Reader	Diane Nielson	Diane Nielson

Concerns:

Scan Date	2/23/2023	6/16/2020
Mean IMT	0.77	0.63
Max IMT	0.92	0.77

6/2/2023 Dr. Sims: This patient's mean IMT's have been:

2016-0.75

2017-0.76

2018-0.63

2020-0.63

2023-0.77

This seems to suggest a sampling issue. I wonder if his plaque is partially included in the IMT segment some years, and not others. The patient is extremely diligent about diet, exercise and rosuvastatin 40 mg, so the recent apparent large increase creates difficulties in advising him.
