

Quality Control Worksheet – Report HAS BEEN sent out

Today's date: 5/31/2023

QC Received by Nera

Practice/Physician: Willnauer- Health Suite 110

Patient name: Jeff White

Scan date: 07/21/2022

Response is made: _____

Scan/reading information:

Scan Date	3/30/2023
Sonographer	Marie
Reader	Diane Nielson

Concerns:

Scan Date	3/30/2023
CCA Mean	0.48
CCA Max	0.60
RCB	1.5 E
LCB	1.6 E
LICA	1.5 E

05/22/2023 Todd: Dr. Eldredge,

I reviewed every CIMT I have ever ordered over the weekend to try to find patterns and increase my learning. I have questions regarding the following studies. Unless otherwise noted, my question for each is, "Is this a real plaque since it is only in one location?".

Jeff White 7/7/1970 - CIMT 7/21/2022. Plaque in three locations (right bulb, left bulb, left ICA; all E). No inflammation. 6/15/2022 CACS = 1,206. How to monitor this patient since there is no inflammation and all plaques are echogenic? How often?
